

Greensboro Oaks Project

The official tree of the City of Greensboro is the White Oak, a stately tree. One specimen stood on what is now Lawndale Dr. at New Garden Rd. for almost 300 years and was known as the Liberty Oak.

Numerous storms in recent years have destroyed many of these trees. We believe there is great interest in replacing these trees, but they are typically not carried in garden centers.

Guilford Garden Center in Guilford College, another area known for Oaks, has come up with a source of reasonably priced Oak trees.

You can order via their website, in person, or by phone. A portion of the proceeds goes to benefit Greensboro Beautiful www.greensborobeautiful.com

Online ordering- www.guilfordgardencenter.com

In Person - Guilford Garden Center
701 Milner Dr.
Greensboro, NC 27410
(336) 299-1535
