

# ASPARAGUS FERN

## Houseplant Care Guide

Pot in a high quality potting mix like Black Gold's All Purpose Potting Mix.

Place in bright, indirect light. Can tolerate some morning sun. Too much sun on the foliage will cause it to burn.

Always check the moisture of your soil before watering. Water when the top 25-50% of the soil is dry.

Diluted balanced fertilizer at half strength once a month in spring and summer.

Use a pebble tray or humidifier to keep the humidity around your fern at 60 to 70%.
